

## Digital Theater Proposal Form

National Stereoscopic  
Association  
Convention, Irving in 2005  
July 13-18, 2005

All digital files must be received by email, FTP, CD or DVD by June 1 for consideration

Digital Theater programs will be shown with the Slide Theater programs.

**STILL IMAGES are to be 2XGA resolution** (double 1024x768= 2048x768). Preferably, the double image will be set up in a cross-view fashion, but parallel view will be accepted. Powerpoint or executable slide shows will be accepted. For instructions on setting up 2XGA digital images, please access the website page at <http://studio3d.com/pages/stereoproj.html>.

**STEREO VIDEOS will be accepted in interlaced or locked dual stream mode (side by side or over/under)**. Resolution should be at least VGA. Videos will likely run from a RAID 0 hard drive (NEW setup - please inquire for info!) Other formats considered...

We will have the INFOCUS LP530 DLP video projectors for presentation. *Direct questions to Ron Labbe via email:* [ron@studio3d.com](mailto:ron@studio3d.com)

We are looking for shows that are short and sweet!
